## Level Indicator Datasheet

### Overview

Indicates if the crane is level (within 0.1° accuracy), sending a signal for alarm if necessary. The sensor is most useful in situations where there may be ground thaw, sinking mud or extreme wind.

### Operating time

100% (continuous duty)

### Voltage type

Powered by a 3.6 volt D cell lithium battery

### Operating temperature

-40°C to +60°C

### Operating Frequency Range

900-928 MHz in North America

868-870 MHz in Europe

### Material

Body material – Ultramid 8333G Hi-Polyamide 6

Seals – ROHS compliant silicon rubber, 60 durometer shore-A, compound # SIM40160

### Connection

No connection, component provides a wireless signal

### Mounting options

Various brackets available to meet application requirements

### Hazardous locations

Exia IIB T4 Intrinsically Safe per IEC CAN/CSA E60079-11:02

### Environmental Ingress Protection

IP67

### Application

Cranes of all types
